

Question 1

- Spreadsheet of Jobs

*Surprising Finding- The growth outlook for physician's assistants is much higher than I expected.

Job	Salary	Education Req.	Work Location	Growth (%)
Data Scientist	108020	Bachelor's	Offices	36
Surgeon	343990	Doctoral/Professional	Offices, Hospitals, Outpatient Care Centers	4
PA	130020	Master's	Offices, Hospitals, Outpatient Care Centers	28
Lawyer	145760	Doctoral/Professional	Offices	5
Dermatologist	342860	Doctoral/Professional	Offices, Outpatient Care Centers	4
Dentist	170910	Doctoral/Professional	Dental or Personal Practices	5
Medical and Health Services Manager	110680	Bachelor's	Healthcare Facilities	29

- Ranking of Jobs

1. Data Scientist
2. Medical and Health Services Manager
3. PA (Physician's Assistant)
4. Dentist
5. Lawyer
6. Surgeon
7. Dermatologist

This ranking is fairly objective with growth % of the occupation determining how highly ranked a job is. A tie in growth was broken by the mean salary of the job. For example, the growth outlook for surgeons and dermatologists is 4%, but the mean salary of a surgeon is higher than a dermatologist so it was ranked higher.
